## Profile

Enthusiastic MCA student with knowledge of Java, Python, HTML, CSS, JavaScript, SQL, and web development. Passionate about developing user-friendly applications, learning new technologies, and solving real-world problems through software development.

## Education

### Vivekananda College of Engineering and Technology, Puttur

Master of Computer Applications (MCA)

Pursuing

### Karnataka Science College, Dharwad

Bachelor of Science (B.Sc.)

July 2025

CGPA: 8.33

## Technical Skills

**Programming Languages:** Java, Python, C

**Web Technologies:** HTML, CSS, JavaScript, Bootstrap, PHP, Flask

**Databases:** MySQL, SQLite, SQL

**Machine Learning & Computer Vision:** Scikit-learn, OpenCV, OCR

**Libraries:** NumPy, Pandas, Matplotlib

**Tools & Technologies:** Git, GitHub, SQLAlchemy

## Projects

### • Disease Identification & Medicine Recommendation System

- Developed a machine learning-based web application for skin disease detection using image processing techniques.
- Implemented secure user authentication and integrated a MySQL database for storing user and diagnosis data.
- Designed an admin dashboard to manage users, diseases, medicines, and diagnosis history.
- Generated disease information and medicine recommendations based on prediction results.
- **Technologies:** Python, Flask, OpenCV, Scikit-learn, MySQL.

### • Digital Ration Card Management System

- Built a Flask-based web application for digital ration card application and management.
- Implemented OCR-based document verification and facial verification for applicant authentication.
- Developed an application approval workflow and automated E-Ration Card generation.
- Created role-based authentication, application tracking, and an admin dashboard using SQLite and SQLAlchemy.
- **Technologies:** Python, Flask, SQLite, SQLAlchemy, OpenCV, OCR.

### • Furnish Hub - E-Commerce Website

- Developed a responsive furniture e-commerce website with a user-friendly interface.
- Implemented product listing, search, filtering, shopping cart, and secure checkout features.
- Integrated user authentication for registration and login.
- Optimized website performance and responsiveness for desktop and mobile devices.
- **Technologies:** HTML, CSS, JavaScript, Bootstrap, PHP, MySQL.

## Certifications

- Power BI for Beginners
- Introduction to Generative AI Studio
